## Router manual «DSL»

Here, you can see how the router is connected. The FRITZ!Box setup doesn't need to be changed, it's all preconfigured.

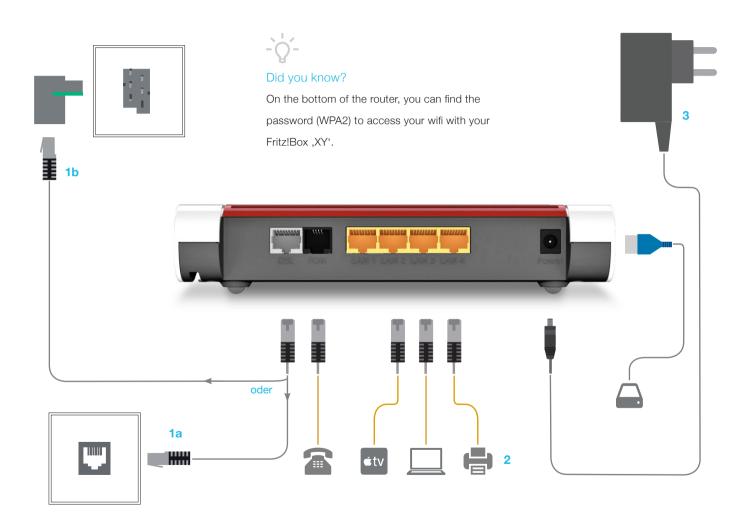

- 1 Connect the router to your DSL socket.
- 2 Connections for other devices (PC, printer, NAS, etc.)
- 3 Power connection

The Internet does not work after the installation? Check the FAQ entry

You can find a detailed installation manual on the following page: www.teleboy.ch/fritzbox

### Apple TV manual

If possible, connect the Apple TV box to the internet with the LAN cable.

- 1 Connect the power and HDMI cables and switch on the TV.
- 2 Connect the remote control to connect the devices, press on the touch surface of the Siri remote.
- **3** Choose language swipe up on the touch surface of the remote control to look for the language and the country/region.
- 4 Choose how you want to conduct the installation: configure manually
  - a. Choose a Wi-Fi network and enter the password.
  - b. Wait until Apple TV has been activated. Check your internet connection if it doesn't activate.
  - c. Log in with your Apple ID.
  - d. If necessary, choose a device to send a verification code to.
     Then, enter the code on your Apple TV.
- 5 Search and download the Teleboy App in the App Store and log in with your Teleboy account.

- 1 Power cable
- 2 HDMI cable
- 3 LAN cable
- 4 Touchpad
